

The 'Diamond Traditionale' Espresso Machine

A True Italian

Diamond Services has released the Diamond "Traditionale" espresso machine to further enhance the Diamond Espresso range. This hand crafted espresso machine has been designed in conjunction with Diamond Services and is manufactured in the heart of Espresso "Italy".

Renowned features and build quality

The Traditionale range features the famous E61 styled group head, seen as the bench mark for ensuring both consistency and the ultimate espresso extraction. The Traditionale is manufactured using the most reliable and commonly available parts for ease of service and maintenance. All of these features have been encased in a stainless steel body for both visual appeal and simplicity when cleaning.

Ease of service = reduced running costs

Due to the design and assembly of the Traditionale range of espresso machines, along with the use of the most reliable and readily accessible parts being used in the manufacture of the machine, the Traditionale is extremely simple to service. With most parts common to other leading espresso machine brands making the machine extremely cost effective to service and maintain over time.

FEATURES

- Famous E61 styled group head system
- Italian made
- Robust steel chassis with stainless steel outer
- Simple to use
- Raised Group head height to suit market's changing needs
- Stylish European outer body design
- 12 Months Warranty

Designed to meet the needs in the Australian Market

Diamond Services worked very closely with the manufacturer of the Traditionale range of espresso machines to ensure the units were suited for the Australian market.

The raised group head heights were designed around the growing need in the Australian market for larger take away cups, along with a large cup warming section to ensure enough cups can be stored on top of the unit to meet the busiest café. The steam taps chosen are one of the most robust available ensuring the taps can handle the Australian markets large milk based coffee needs.
