# BBQ COFFEE TRAILER COMPONENTS

## EvaKool FM70 Fridge / Freezer

- Either all fridge / all freezer / or half half.
- Reliable Danfoss Compressor
- 5 year warranty on whole unit
- Self Diagnostic Fault System
- Runs continuously on the 12 volt power supply from on-board deep cycle battery.

## Diamond Italian coffee machine:

- 2 group stainless steel semi-auto Diamond Prima machine.
- High group head fitting cups up to 14cm high
- 13 litre stainless boilers give impressive steam power.
- Radial group shower gives auto back flush cleaning feature. Push button control panel to program group heads. Efficient heat exchanger allows 15 to 20 shots in a row.

## Compak k-3 Elite Grinder:

The exclusive, advanced system of conical burs with a revolutions-reducer guarantees the greatest grinding power with the least friction. The result is faster, more even and natural grind, with practically no re-heating. At last, it is possible to achieve freshly ground, "Cold coffee" that conserves all its properties. The machine has a telescopic press and is espresso area-calibrated.

- # Hopper capacity (g): 800

## Jumbuck Flatbed BBQ's

- 2x Pull out slides bring BBQ's out of the trailer
- 2x Gas bottles mounted on a slide in separate bottle compartment – permanently connected
- Enough capacity to cater for a big crowd
- Easy clean stainless steel lids and bench surfaces.

## Honda EU30i

Honda's most advanced inverter generator specifically designed for situations where quiet portable power is essential and with a mere 52dB(A) noise level, this Honda Generator is the leader in its class.

- Maximum output power of 3000 w/240volt AC
- Superb low noise, 51dB(A)
- Up to 12 hours of continuous operation
- Low fuel consumption, @ 0.65 to 1.86 litres/hour\*
