With over 25 years in the food engineering and technology industries Coffee Bella now leads the industry with specialized expertise in the fit-out of Coffee Vans, Food Vans and mobile cafes. Our Coffee Vans are designed to give you the chance to create your own complete coffee business, and take control of your financial future. Over the years we have fitted out almost every kind of vehicle imaginable, and are keen to help you customize a coffee fit-out to suit your needs. Our qualified tradesman put your van together within our own specialized workshop.

MOBILE COFFEE VAN

A "drive away" coffee van package is available in a wide range of vans including Mercedes Vito, Hyundai i-load, VW Caddy, Toyota Hi-Ace, Mitsubishi Express, and many others. This gives a solid range of options in terms of size and pricing. We can fit-out either brand new or second hand vans with great results. We can use either your van or ours.

YOUR OWN BUSINESS

A new mobile Coffee Van allows you to run your own full time or part time business from your home base. Remember that once purchased, the unit is yours and you are free to use it as you wish, where you wish with no ongoing fees or commitments. Your own coffee van gives you the option to establish a daily "run" or focus on catering for events, school functions, sports days and similar occasions. The mobile coffee industry is well established in Australia and provides a solid income to enthusiastic operators.
