

## Coffee Cart by Coffee Bella

### Installation and Warranty Details

The preparation for and installation of this Coffee Cart is the total responsibility of the purchaser.

#### **Electrical–**

The Coffee Cart is wired with a 20 amp power lead to plug into a 20 amp power socket. We recommend that the purchaser prepare for the new coffee cart by having a 20 amp power point installed near to where the coffee cart will be operating. Coffee Carts are wired to operate no more than a 15 amp Coffee machine. Do not overload the coffee cart with additional electrical appliances.

#### **Water -**

Coffee Carts are designed to be connected to mains water supply. It is the purchasers responsibility to check the fitting type and fitting size to ensure ease of connection. The cart has been fully pressure tested for leaks prior to dispatch. We recommend that all mains water supplies be fitted with a pressure reducing valve so that the possibility of leaks or damage to the lines are minimized. Any water leaks within the cart should be treated a maintenance issue and will not be covered by any warranty. Within the cart is a “water filter” which should be changed as necessary depending on the quality of the local water.

#### **Hot Water System-**

The cart has an instantaneous electric hot water system. It supplies hot water to the left hand sink for hand washing purposes. Water temperature can be adjusted by varying the flow rate from the tap or by adjusting the setting on the front of the hot water unit. The unit is temperature limited to just under 50 degrees to minimize the possibility of scalding the hands.

Coffee Bella offer a general three month warranty from the date of purchase on the Coffee Cart. Coffee Machine and grinder ( if supplied ) are covered by a 12 months parts & labour warranty offered directly by the supplier ie Diamond Coffee Equipment. All warranty repairs are offered at place of purchase.

Warranty does not cover any damage caused in transit regardless of who arranges the transportation.

#### **Maintenance -**

Maintenance of the unit and its various components is the total responsibility of the purchaser.

Coffee Bella and or its various suppliers and contractors will not accept any claim for consequential loss of any nature whatsoever arising from the malfunction or stoppage of this unit or any of its components.
